ENTRY POINT OVERVIEW

BANNER ASSETS:

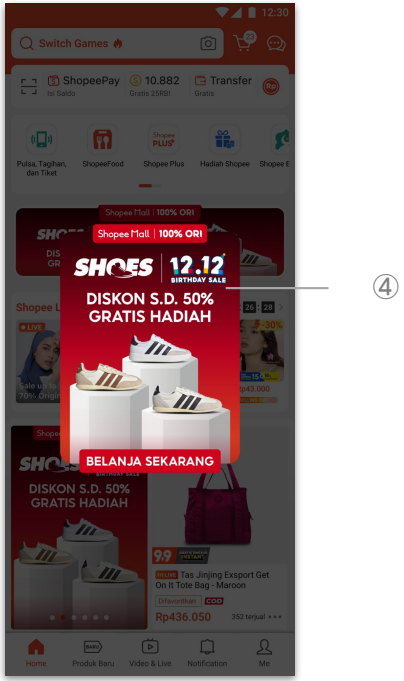

1. Skinny App Banner : 1200 x 360 px
2. Banner Card : 531 x 792 px
3. Floating Banner : 360 x 360 px
4. Pop Up Banner : 580 x 720 px

Consistency across all banner formats is mandatory. Every asset: Skinny App Banner, Banner Card, Floating Banner and Pop Up Banner, must use the same key visual, message, and design direction to ensure a unified brand experience.

This consistency strengthens recognition, improves clarity, and reinforces the campaign message. Adapt only layout and size, while keeping core elements like imagery, colors, typography, and messaging consistent.

Skinny Banner & Banner Card

Pop Up Banner

BANNER CARD: SPECIFICATION

BANNER SPECIFICATION:

- Dimension : 531 x 792 px
- Format : JPG/PNG
- File Size : ≤500kb

IDEAL CONTENT STRUCTURE:

1. **ShopeeMall Tag**
   Use correct implementation of Shopee Mall tag.
   - Red version color code #D0011B
   - White version color code #FFFFFF
2. **Brand Logo**
   Brand logo should be placed at the top to follow a natural reading flow.
3. **SKU Image**
   Products must be included in the banner. Ensure they are clearly visible, high quality, and easy to recognize.
4. **Key Selling Point (KSP)**
   KSP or tagline must be included to highlight the main campaign offer. Use min. font size of 25pt and avoid text-heavy layouts to ensure the message is easy to grasp.
5. **Background**
   This placeholder background is to be used for any brand's design elements & KV implementation to enhance overall look and feel based on brand's requirements. We should avoid #FFFFFF and #F1F1F1 backgrounds because they lack sufficient contrast with the application's interface.

BANNER CARD: INCORRECT EXAMPLES

The Shopee Mall tag is missing.

The Shopee Mall tag implementation is incorrect.

Use the white Shopee Mall version when the background is red.

Use the correct version of the Shopee Mall tag.

BANNER CARD: REFERENCES

Here are a few banner samples that are fully compliant with our brand guidelines in terms of content and layout.

POP UP BANNER: SPECIFICATION

BANNER SPECIFICATION:

- Dimension : 580 x 720 px
- Format : PNG Transparent
- File Size : ≤250kb

IDEAL CONTENT STRUCTURE:

1. **ShopeeMall Tag**
   Use correct implementation of Shopee Mall tag.
   - Red version color code #D0011B
   - White version color code #FFFFFF
2. **Brand Logo & Campaign Logo**
   Brand logo should be placed at the top to follow a natural reading flow.
3. **SKU Image**
   Products must be included in the banner. Ensure they are clearly visible, high quality, and easy to recognize.
4. **Key Selling Point (KSP)**
   KSP or tagline must be included to highlight the main campaign offer. Use min. font size of 25pt and avoid text-heavy layouts to ensure the message is easy to grasp.
5. **CTA Button**
   This element is mandatory and cannot be altered or change the CTA.

POP UP BANNER: INCORRECT EXAMPLES

The Shopee Mall tag size is below the standard.

The Shopee Mall tag and CTA are the wrong color.

The Pop Up banner has the wrong shape.

Use the correct Shopee Mall tag and Pop Up banner shape.

POP UP BANNER: REFERENCES

Here are a few banner samples that are fully compliant with our brand guidelines in terms of content and layout.

FLOATING BANNER: SPECIFICATION

BANNER SPECIFICATION:

- Dimension : 360 x 360 px
- Format : PNG Transparent
- File Size : ≤250kb

IDEAL CONTENT STRUCTURE:

1. **Brand Logo**
   Brand logo should be placed at the top to follow a natural reading flow.
2. **SKU Image**
   Products must be included in the banner. Ensure they are clearly visible, high quality, and easy to recognize
3. **Close Button**
   Close button is a mandatory element in Floating Banner. Do not remove or modify the close button element.

POP UP BANNER: INCORRECT EXAMPLES

Do not use promotional messages or BA in the floating banner; only display the SKU.

Do not remove Close Button element.

Do not exceed the masking shape boundaries.

Place the logo on the top shape and position the SKU correctly within the masking area.

POP UP BANNER: REFERENCES

Here are a few banner samples that are fully compliant with our brand guidelines in terms of content and layout.

SKINNY APP BANNER: SPECIFICATION

BANNER SPECIFICATION:

- Dimension : 1200 x 360 px
- Format : JPG/PNG
- File Size : ≤500kb

CONTENT STRUCTURE:

1. **Key Selling Point (KSP)**
   To make this section stand out prominently, we recommend to have max. 2 KSPs. The goal is to ensure users can quickly and clearly understand the main offer or value proposition at a glance. We recommend a font size of approximately 47 pt to ensure optimal legibility.
2. **Logo Brand**
   Brand logo should be placed at the top to follow a natural reading flow.
3. **ShopeeMall Tag**
   Functions as a campaign identifier, It sets the context, letting the viewers know that the brand has 100% originality.
4. **SKU Image**
   A product image is required, ensure it's high-quality, relevant, and well-composed. This enhances credibility and supports the overall aesthetic of the banner
5. **Background**
   This placeholder background is to be used for any brand's design elements & KV implementation to enhance overall look and feel based on brand's requirements. We should avoid #FFFFFF and #F1F1F1 backgrounds because they lack sufficient contrast with the application's interface.

SKINNY APP BANNER: INCORRECT EXAMPLES

The skinny banner design template is incorrect, and the Shopee Mall tag implementation is also incorrect.

There is no white outline, and the Shopee Mall tag implementation is incorrect.

Kindly ensure the design is placed inside the clipping mask as per the guidelines.

Use the correct skinny banner template and Shopee Mall tag.

SKINNY APP BANNER: REFERENCES

Here are a few banner samples that are fully compliant with our brand guidelines in terms of content and layout.

SKINNY WEB BANNER: SPECIFICATION

BANNER SPECIFICATION:

- Dimension : 1200 x 110 px
- Format : JPG/PNG
- File Size : ≤500kb

CONTENT STRUCTURE:

1. **Background**
   This placeholder background is to be used for any brand's design elements & KV implementation to enhance overall look and feel based on brand's requirements. We should avoid #FFFFFF and #F1F1F1 backgrounds because they lack sufficient contrast with the application's interface.
2. **Logo Brand**
   Brand logo should be placed at the top to follow a natural reading flow.
3. **Key Selling Point (KSP)**
   To make this section stand out prominently, we recommend to have max. 2 KSPs. The goal is to ensure users can quickly and clearly understand the main offer or value proposition at a glance. We recommend a font size of approximately 40 pt to ensure optimal legibility.
4. **SKU Image**
   A product image is required, ensure it's high-quality, relevant, and well-composed. This enhances credibility and supports the overall aesthetic of the banner
5. **ShopeeMall Tag**
   Functions as a campaign identifier, It sets the context, letting the viewers know that the brand has 100% originality.

SKINNY WEB BANNER: INCORRECT EXAMPLES

Masking is not applied according to the Skinny Web guideline, and the Shopee Mall tag is positioned incorrectly.

The background color outside the Skinny Web area is incorrect, and the Shopee Mall tag has not been applied.

Kindly use the white version of the Shopee Mall tag on red backgrounds to maintain proper contrast and visibility.

Use the correct skinny banner template and Shopee Mall tag.
